

Southeast CS User Manual

Opening the Application

Find the “Southeast CS” app icon on your device and click it. This will load and open the application.

Navigation

There are five tabs in the application and when opened, you will be shown the Events tab.

To navigate between all five tabs, either click on the desired tab at the top of the screen, or swipe left and right to find the desired tab.

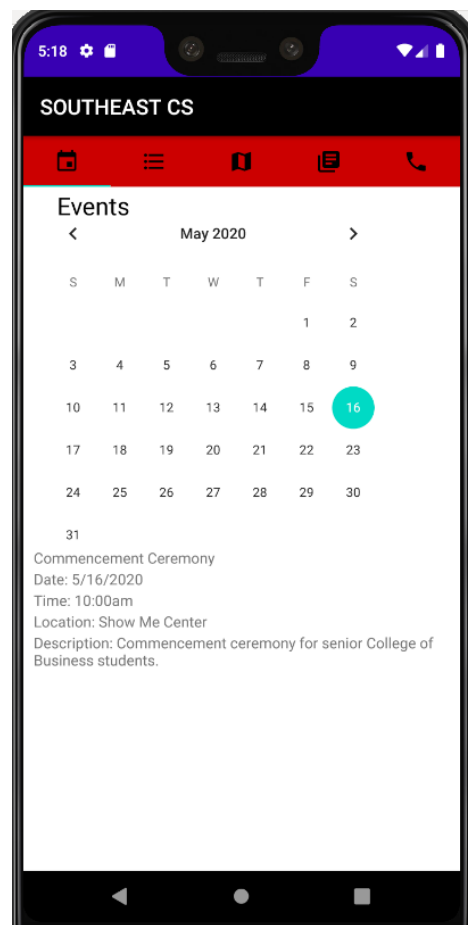

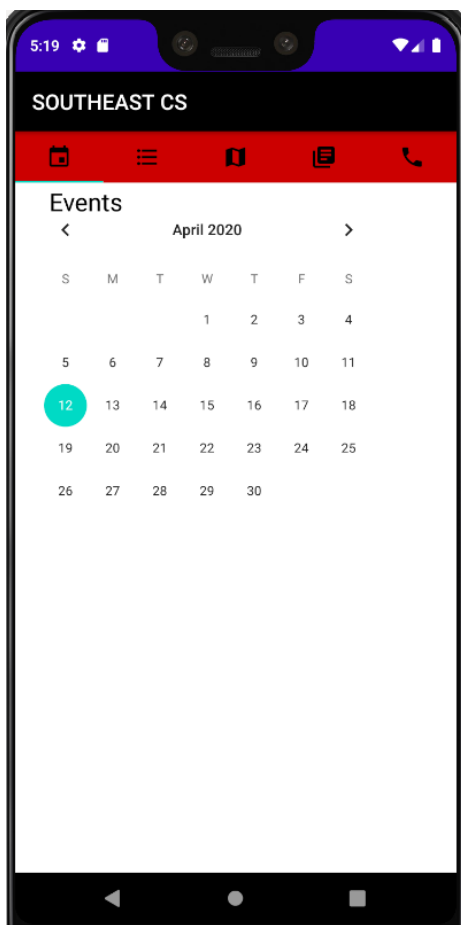

Events tab

This tab will allow you to view dates, times, locations, and other information about events that might pertain or be interesting to computer science students.

When you are viewing the Events tab, a calendar will be displayed. The calendar will automatically select today's date every time the tab is opened.

To navigate to a different month, you may click the left or right arrow at the top of the tab. You may also swipe across the calendar to change months.

To select a date to view the details of an event, click the day on the calendar and if there is an event on that day, it will be displayed below the calendar.

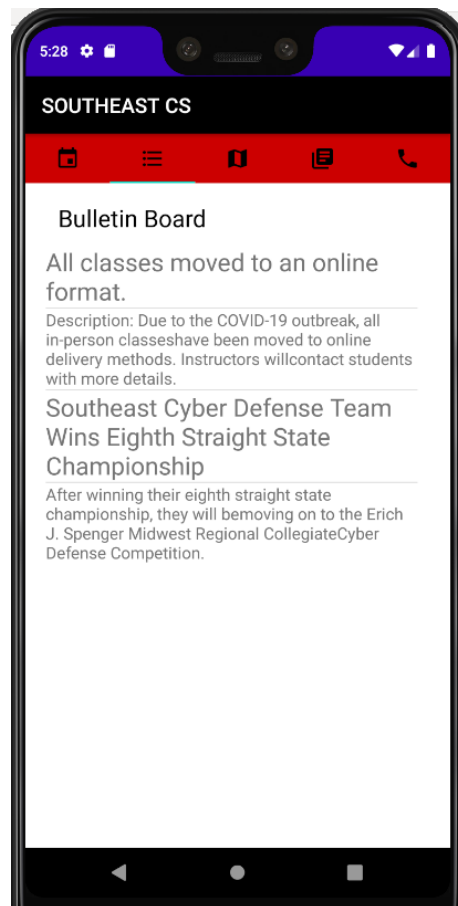

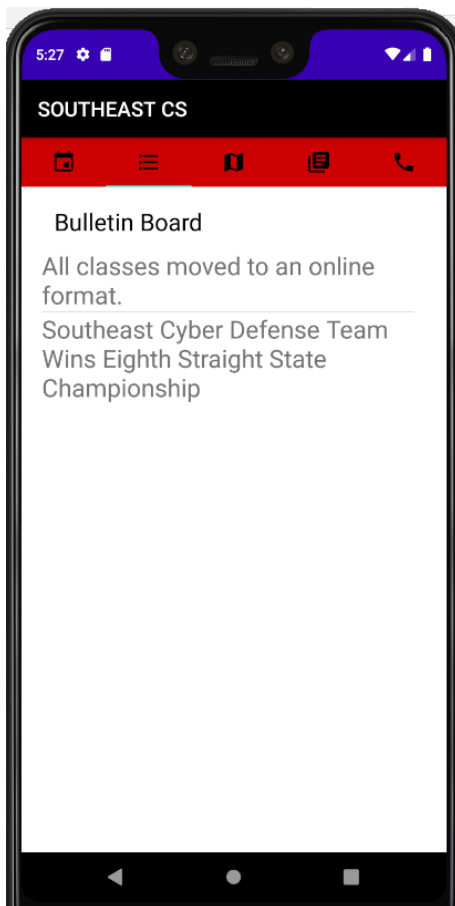

Bulletin Board Tab

This tab will allow you to view announcements that might pertain or be interesting to computer science students.

When you are viewing the Bulletin Board tab, a list of the headline for every announcement will be displayed. If there are too many announcements to fit on the screen, you can scroll up and down to navigate through the list.

To view the entire announcement, click on the headline and all information about the announcement will be displayed in a dropdown. To get rid of the full announcement click the headline again, and the dropdown will retract.

To navigate through the degree maps, scroll up and down through the page to view the proper degree map.

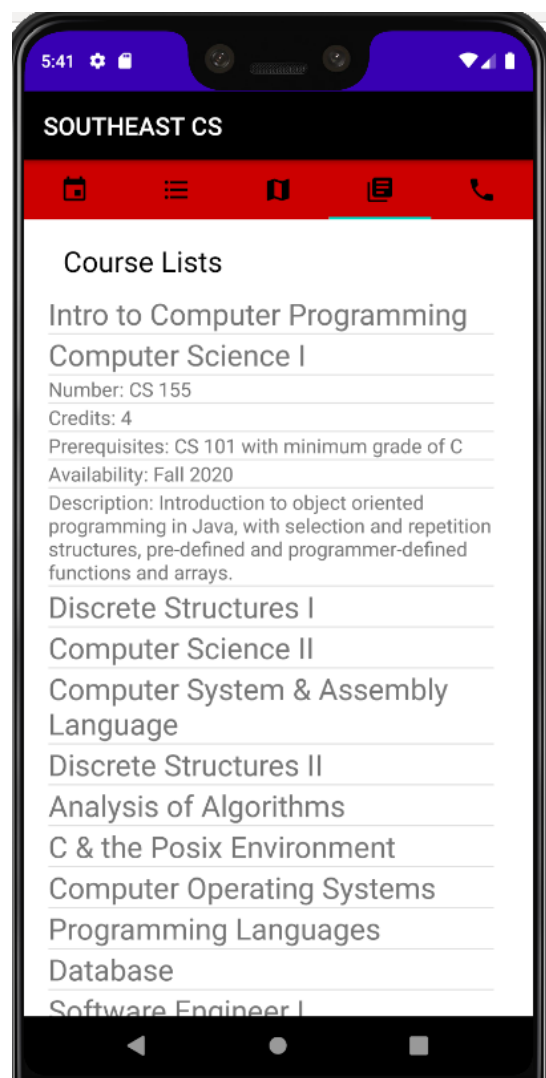

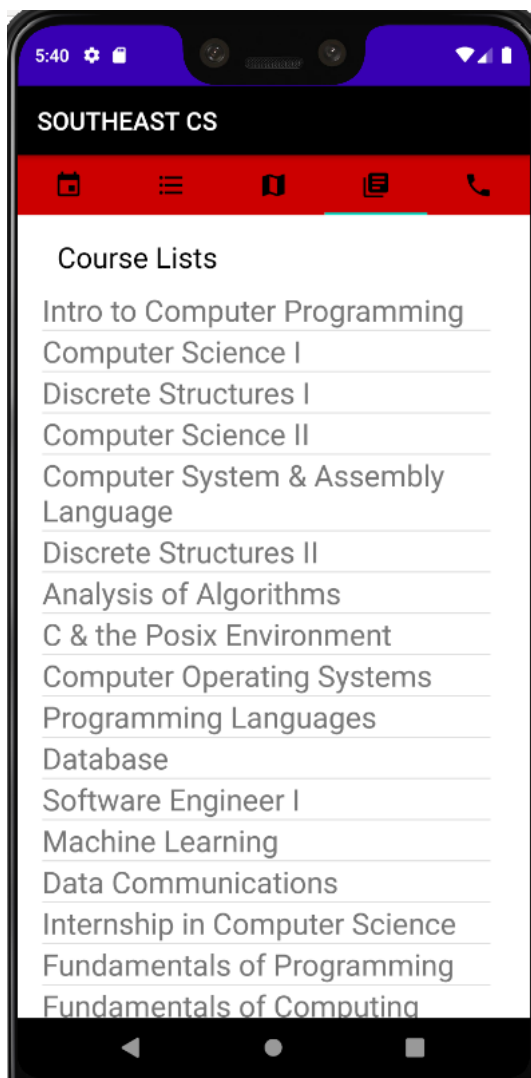

Course Lists

The Course Lists tab allows you to view every course that is offered by the computer science department.

When you are viewing the Course Lists tab, a list of the course names for every course offered by the computer science department will be displayed. If there are too many courses to fit on the screen, you can scroll up and down to navigate through the list.

To view all information about a course, click on the name of the course and all information about the course including course number, credit hours, prerequisites, when it is offered, and a description will be displayed in a dropdown. To get rid of the full course information click the headline again, and the dropdown will retract.

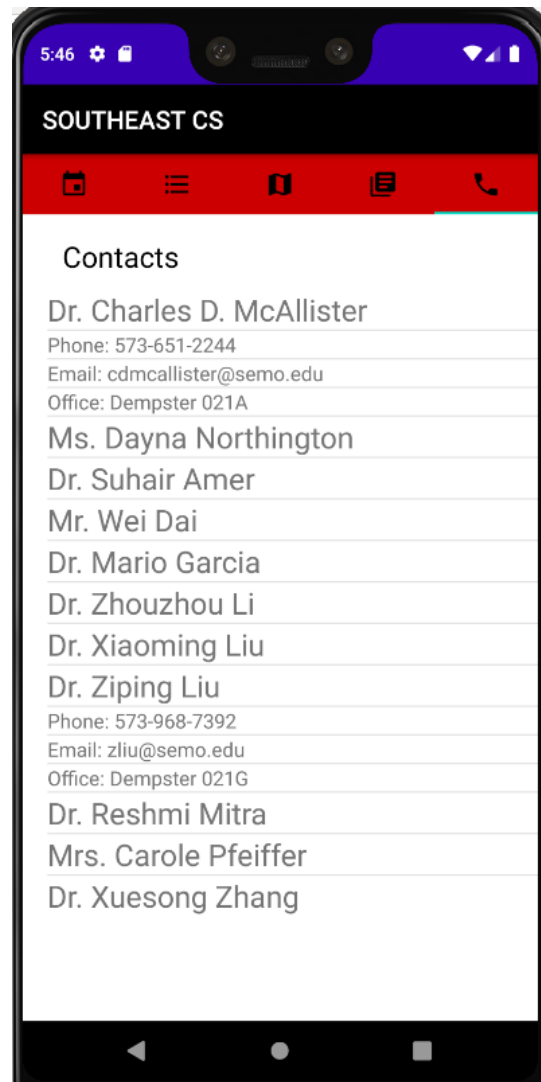

Contacts Tab

The Contacts Lists tab allows you to view contact information for every faculty member in the computer science department.

When you are viewing the Contacts tab, a list of names of every faculty member in the department will be displayed. If there are too many names to fit on the screen, you can scroll up and down to navigate through the list.

To view all contact information for a faculty member, click on the name of the faculty member and all contact information for that person including phone number, email address, and office number will be displayed in a dropdown. To get rid of the full course information click the headline again, and the dropdown will retract.

Navigation

To navigate between tabs in the application, the user has two options. The tabs at the top of the screen may be clicked to navigate between tabs. The user may also swipe left or right on the screen to navigate between tabs.

Database Connection

The current version of the application is not connected to the database within the admin control panel. This is a future plan for the application. Currently the data within the application is static and is not pulling from the database. The connection has been worked on but is not finished.
